**4. Project Location Address (if different from Organization):** Same as above

**5. Please describe the requesting organization's main activities, and whether it is a public, private non-profit, or private for-profit entity:**

The City of Estacada is a public entity that provides municipal services.

**6. Briefly describe the activity or project for which funding is requested (please keep to 500 words or less.)**

The City of Estacada's **Highway 224 Pedestrian Safety and Transportation Enhancement Project** is set for construction in the summer of 2009. It is a \$1.65 million project that is designed, fully engineered, awarded for bid, and requires a local match of \$170,000. While we have saved for this local match during the past 5 years, we have forsaken local road improvement projects that would otherwise be funded with this money.

The project improvements include the current striped median being converted into a raised, planted median. The existing shoulders and sidewalks will be converted into a standard width bike lane, including landscape strips with trees, plants, new street lights and sidewalks.

**7. Has this project received federal appropriations funding in past fiscal years?** No

**7a. If yes, please provide fiscal year, Department, Account, and funding amount of any previous funding.** N/A

**8. Federal agency and account from which funds are requested (Please be specific – e.g. Department of Housing and Urban Development, Economic Development Initiatives account):** Federal Department of Transportation

**9. What is the purpose of the project? Why is it a valuable use of taxpayer funds? How will the project support efforts to improve the economy and create jobs in Oregon?**

The purpose of this project is to increase the safety of the HWY 224 corridor as it passes through the City of Estacada for pedestrians, motorists, and bicyclists. In addition, it will enhance the aesthetics of the entrance to our business district/downtown shopping district, which will serve to support and promote the growth of our local businesses.

The City of Estacada's \$170,000 contribution will in fact be a leverage point to bring a \$1.65 million dollar improvement to our city. The work of the project would provide jobs during the construction phase, and would potentially be a gateway to improved business development and job growth for Estacada. Also, if this project received federal appropriations for our local match (\$170,000), this would free up our local budget to commence with paving several of our low to moderate income area streets, as prioritized through our local budget process.

**10. Have you requested funding for this project from other Members of Congress? If so, who?** Yes.
